

Local Presence. Global Resources.

The E & E family of companies is a recognized global leader in the mining industry, offering a full suite of services from exploration and permitting to closure and reclamation.

With 54 offices around the world we have the depth of knowledge, breadth of experience and multidisciplinary resources to provide smart, innovative solutions to our clients – anytime, anywhere.

Getting to the Core of Your Mining Needs, We:

IDENTIFY solutions to meet project schedules, avoid unnecessary costs and minimize environmental, physical, and socioeconomic impacts.

ADDRESS all facets of mining: exploration, development, ore processing, permitting, and closure.

CONDUCT site investigations and develops cost effective remedial and restoration programs for contaminated mine sites.

ACHIEVE regulatory compliance and resolve enforcement matters and third party claims.
